ALT-211 Alerta Deluxe Heel Bootee

The **Alerta Deluxe Heel Bootee** is designed to support and elevate the heel, providing relief to individuals who experience pain, discomfort or pressure on the heels and can be worn by the user in many positions.

The heel can be a very difficult area to protect against pressure ulcers, Alerta's Deluxe Heel Bootee provides superior deluxe comfort and pressure relief, through genuine heel offloading, reducing the possibility of a pressure ulcer developing and helping existing pressure ulcers to heal.

The cool brushed nylon fabric limits perspiration, providing a comfortable surface and eliminates friction while the superior deluxe memory foam internal padding reduces pressure risk.

KEY FEATURES

- Can be used in supine, or sitting position
- One size for all; simply fasten the straps to provide a comfortable fit.
- Pressure relief level: High risk
- Reduces pressure on heels for greater comfort
- Cool, soft surface allows all day comfort
- Anti-rotation bar
- Spot wash, air dry

WASHING INSTRUCTIONS

1. Release and loosen Velcro closure on toe and calf straps. (Fig. 1)
2. Position heel in Deluxe Bootee so the heel is suspended over the heel cut-out. (Fig. 1)
3. Position shin pad so it is centred over shin. (Fig. 1)
4. Fasten toe strap. Do not over tighten. (Fig. 2)
5. Fasten Velcro calf strap ensuring a snug fit. Do not overtighten (Fig. 2)
6. Check that the foot and calf are securely in place and the foot and calf straps are not too tight.
7. Check that the heel is suspended over the cut-out and is not rubbing or touching areas on the positioner. Readjust as necessary. (Fig. 3)
