Reynard Dry Wipes.

When soft meets strong.

Chemical and fragrance free, our wipes are made from a high quality, non-woven fabric which can be used wet or dry.

Reynard dry wipes are disposable, practical and absorbent, providing some of the softest and strongest wipes on the market, helping them to become the preferred option for patient care, nappy changing and general cleaning.

Ideal for face, hand and body cleansing, our extra-large wipes are specially designed to be highly absorbent, allowing you to use less wipes.

These extremely soft wipes are chemical and fragrance free and are safe to use on infants and sensitive skin.

If particular quantities or even a biodegradable option is preferred, please let us know.
We are more than happy to offer bespoke solutions.
